

It is amazing to see what the Lord is doing here at Southeastern Free Will Baptist College, especially in the past few weeks! And part of that is how He continues to use our SE Alumni to be a blessing to the college and the student body. Yesterday, an alumnus pulled up to the cafeteria with a load of brand new custom made furniture for our Campus Corner. It adds so much to our beautiful facilities and this furniture was built to last! So, on behalf of the entire student body here at Southeastern, thank you so much to our Southeastern Alumni family for your generosity and thoughtfulness in funding and constructing this project. We appreciate all that you do for our college!

- Brooks Phillips (Student Body President)

After eight years of constant use and enjoyment by the student body, the alumni association has again invested in the next generation of servant leaders by updating the Campus Corner furniture. Alumni Danny & Susan Bailey (Metal Fred's Designs) designed and constructed all the steel frames for the tables, benches, and stools. Then, alumnus Mark & Sonya Cash took over by completing the woodwork out of red oak hardwood. The alumni funded the project with a little help from the WNAC in honor of Ms. Laurie Horne.
